## MANAGED CLOUD SERVICES

Let Redot Global be your cloud hosting services provider as we would facilitate your business to have the necessary computing power taking your business forward. This would save your costs, improve the flexibility and we will make sure to take the maximum out of available resources. You could already have an infrastructure but are in need to move for a cloud solution or you might want to set up a new cloud-based one. No matter what your requirement from the above two is, we are ready to fulfill it for you.

- Cloud Platform
- Cloud Security
- Network and Storage
- Cloud Monitoring and Reporting
- Backup and Disaster Recovering
- Infrastructure Setup
- Business Continuity
- Cloud Migration Services

These services offer a wide range of services that fulfil the requirements of a cloud computing environment in line with organizational needs.

---

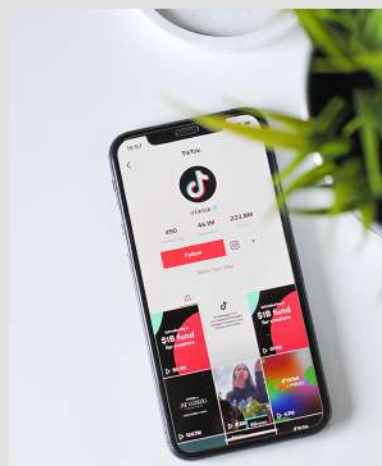

## E-COMMERCE & WEB DEVELOPMENT

A successful website provides your clients a better user experience and it is extremely important in generating leads. The design is a key as it gives the first impression out and that will decide whether the visitor becomes a customer or he/she leaves with the intention of never returning.

When your business grows big, it is important to think big. When the scale becomes higher, the product range and the target audience will get expanded accordingly. If you intend to grow your business, you should go for an e-commerce solution which is responsive, secure and convenient.

Redot Global will create your website and make your business exposed to more than 3.4 billion who are using the internet daily.

## MOBILE APPS

In a time of Mobile Brand Visibility has become an important aspect for any business, isn't it necessary for you to make your business available on App? It will definitely give your customers a unique brand experience while helping you to be ahead of the competition.

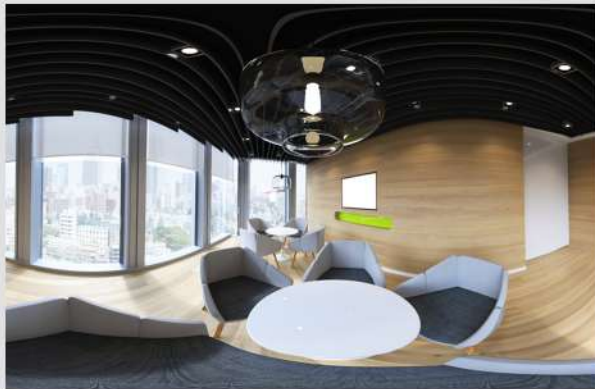

Redot Global is capable of bringing your ideas into reality on all platforms like Android and IOS by creating interactive mobile apps and games.

---

## DIGITAL MARKETING

Voice your brand to the world. From the first step of having a website to the next step of attracting customers around the brand. 360 degree digital marketing solutions from Redot Global. We have mastered in the fields of SEO, Social Media Marketing, Google Ads and content writing as well. We will make sure that your business has sufficient exposure online.

## 360 VIRTUAL TOURS

Suppose that your hotel has a scenery and a captivating view or your shop is nicely arranged and all the clients visiting are in awe of it. What is the option you can use to give this experience to your potential clients sitting home? We came up with the answer of 360 Virtual Tour. Do not mix this up with video tours. Through video tours you can see from one point of view at a time. But with virtual tours you are able to get an entire panoramic scene or zoom in if you want a closer look of a certain area. How can the 360 virtual tour benefit your business? First thing is it will improve the local SEO traffic for your business? Let us explain how it happens. The smartphone users as a habit uses Google maps to find nearby locations. They tend to click on places with a virtual tour to decide which place to visit. Furthermore virtual tours make it easy to tell your customers about your business. If you use the correct keyword tags on YouTube, there is a possibility for your video to be found on the first search results page itself.

---

## IT CONSULTANCY

An effective digital strategy will help your business to be successful online. We will consult and propose you the much needed digital strategy for your company. Our consultancy prompts the use of digital technologies for the greater good of your business.

A successful digital strategy requires a cross-functional team with executive leadership, marketing and technical personnels. So together Redot Global is capable of making your business a success story on the internet. The strategies we use are tested and proven.

---

## WSO2 SERVICES

WSO2 enables the composable enterprise. It's open-source, API-first, and decentralized approach helps developers and architects to be more productive and rapidly build digital products to meet client demands. They provide services expanding from API manager, WSO2 integrator, WSO2 identity server to WSO2 stream processor to name a few.

Redot Global is capable of providing you the WSO2 services required for your enterprise.

- We integrate the platforms
- We manage the APIs
- We do the identity management
- We conduct training

# Success Stories

As Richard Branson said, every success story is a tale of constant adoption, revision and change. At Redot Global we innovate proving our customers a unique total solution through divergent thinking and adopting to cutting edge technologies.

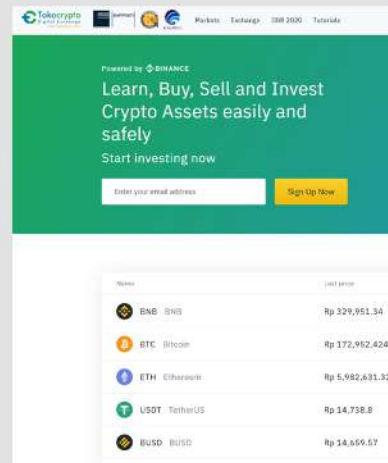

## CENTRAL PARK PUPPIES

Redot Global joined hands with “Central Park Puppies” to create the first and only online pet store in New York. Due to the Corona virus and its consequences, people were frustrated and stuck in their homes desperate for companionships. Under these circumstances, we introduced our solution. What’s more relieving than a man’s best companion, “a puppy” at your door steps to overcome the mentally hard times. The same online solution was able to generate our client a sale of more than \$400,000 even during the crisis making it a win-win for everyone involved.

*“If you are wanting to find out whether this is the right company to work with, here’s what you need to know - The possibilities are truly endless with them. Redot Global is professional, creative and is an intelligent team to work with. Whether you need a fully customized cloud software with a complex backend and full-featured frontend, or a Wordpress, or Shopify site, there really is nothing that they cannot do. They will turn a simple Shopify site into a customized work of art because they know how to customize everything! When you need something done, they will find a way and provide the solution. I’ve had my fair share of developers that under deliver in the past, so I am extremely happy to have found these guys! To the Redot Global team- Thank you for bringing my ideas into reality!”*

**Julian Perera (Founder/CEO, Central Park Puppies)**

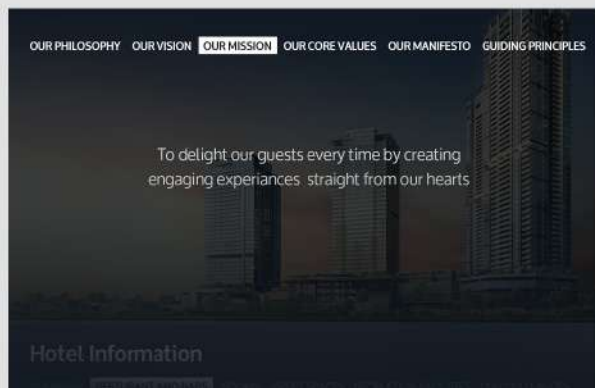

**TOKOCRYPTO**

Redot Global helped Indonesia have its first ever regulated cryptocurrency platform from the roots onwards. For every startup to be a success, the team behind matters as much as the ideas. With our inputs and very own set of expertise we assisted Tokocrypto to build their platform merely within two and half years. It was an absolute success, later taken over by Binance, the world's largest crypto currency exchange.

*"Very professional work. Fast, responsive and responsible. Definitely will recommend for future work required."*

**Xue kai Pang (Founder, Tokocrypto)**

# SHANGRI-LA HOTELS, SRI LANKA

To win the market place you must first win the workplace. One of the biggest hotel brands, Shangri-La first entered Sri Lanka to set up two properties in Colombo and Hambantota. They were keen on recruiting the right talent for the right job. Following the go green footsteps of the company we invented a 100% paperless recruitment solution. With our technical expertise a flawless and an effective system was deployed to recruit more than 1200 employees within a single month.

*"Nice piece of work by your team. Well done!"*

**Thivanka Costa (Director, Human Resources at Shangri-La Hotels and Resorts)**

# Homegrown Products

## TOUR MANAGEMENT SYSTEM

The manual processes and the complications in handling the databases of agents and hotels have been nightmares for the tour and travel agencies. Redot Global identified these issues and introduced the TMS which is an internal operations application tailor made for these agencies.

TMS is in synchronization with the booking platforms making things simple for our clients. The paperless automation system is capable of taking the accuracy level and efficiency to the next level reducing the human error rate. In a nutshell, TMS will be your ultimate tour manager which handles inquiries, generating an ideal itinerary and the quotation for the client as per the request.

---

**AZ** BUSINESS  
PORTAL

**MORE THAN A  
BUSINESS**

The extended version of a business directory that we introduce allows you to create and manage a personalized profile for your business. This is extremely beneficial as your business will go through multiple changes and updates as it grows with time.

Having an interactive interface helps you to be a step ahead of your competitor. We are giving you the liberty of creating your own customized profile with the widgets integrated on your own application.

With the objective of converting a lead into a sale, we have integrated an online chat service on your profile. Additionally, we have enabled business reviews which are mutually beneficial for both you and your audience as you could assess performance and make improvements to the processes and the clients would be able to get a clear picture of your business. .

---

# COREBIZ

The whole concept of CoreBiz is creating an API centric business information directory with a centralized database. We are using a trusted network of data providers / partners as reliance is vital when collecting information about business all across the globe.

Via Corebiz everyone will have the access to your business information which are not confidential such as,

- Contact information
- Business details
- Classifieds from the businesses
- Products/ services from the businesses

The developers would be able to build apps centralized around the open API of Corebiz.

When you register with Corebiz you will get a sales API for products listed by your businesses. As online shopping is today's go to marketing strategy we have enabled payment processing in this API.
